To My Fellow Early Childhood Educators,

Like a quilter, the teacher sets her goals and plans the design of her class depending on the material she has. Each quilt block (student) must be positioned to bring out its optimum potential. Blending different colors and rich background, the teacher uses her wisdom and experience to baste the class together to avoid clashes and to create a wonderful learning environment.

"Classroom Management...With Music" is the perfect thread to gently hold the class together and create a dynamic positive learning atmosphere.

Music will greet students at the door for the start of the school day right up to the time they need to get ready to go home. Children will sing along as they line up, correct mistakes, avoid gluey messes, clean up, create artwork or take a rest with nary a word from you.

The class will transition seamlessly throughout the fabric of their day from one activity to another.

Go to the web site:

Listen to samples of each tune - and just think of the possibilities!

Purchase one song, a combination of songs, or the entire CD with Activity book and try it out in your classroom!

Believe me, you will be so pleased, you will come back for more.

Enjoy!
